JAYA HARTONO PINUYUT, S.T.

NIP: 19881129 201403 1 001 | GoI: III/b

Full-Stack Software Engineer · AI Evaluation Specialist · Certified Computer Science Educator

📍 Kotamobagu, North Sulawesi, Indonesia 95716 • jaya.pinuyut@gmail.com • jayyuzz.github.io • github.com/jayyuzz • ko-fi.com/marry2

PROFESSIONAL PROFILE

Versatile **Full-Stack Software Engineer**, **AI Evaluation Specialist**, and certified **Computer Science Educator** with over 14 years of distinguished technical and pedagogical service. Combines strong computer engineering and networking foundations with modern full-stack software development—architecting production institutional platforms, client-side biometric/GPS attendance applications, point-of-sale systems, and AI-driven SaaS tools. Approved **Indonesian Linguistic Expert on Mercor** for frontier AI research lab evaluations and enterprise AI evaluator for technical course curriculum localization (AWS Skill Builder / RAG / Amazon Bedrock). Official **Gemini Certified Educator**, **Google Certified Educator (Levels 1 & 2)**, and **Adobe Certified Associate (ACA)** with proven leadership in institutional digitization, student mentoring, and national competition coaching.

CORE COMPETENCIES & TECHNICAL STACK

Frontend & Mobile	Next.js 16 (App Router), React 19, TypeScript, JavaScript (ES6+), Tailwind CSS v4, Progressive Web Apps (PWA), Expo / React Native, Three.js / WebGL, HTML5/CSS3.
Backend & Database	Node.js, Express, Supabase (PostgreSQL, Row-Level Security / RLS, Auth, Server Actions), PHP (Laravel, Sanctum), MySQL, SQLite, REST APIs, Vercel Serverless.
AI & Biometrics	In-browser Face Recognition (`face-api.js`), GPS Geofencing (Haversine), LLM Benchmarking & RLHF Evaluation, Instruction-Following Auditing, Prompt Engineering, Gemini & OpenAI API integration.
Networking & Systems	TCP/IP Architecture, LAN/WLAN Deployment, MikroTik RouterOS, VoIP Telephony (SIP/IP), Network Security, Linux Administration, Hardware Diagnostics.
Integrations & Tools	WhatsApp Gateway APIs (Fonnte, KirimDev), Payment Webhooks (Ko-fi), Thermal Printer APIs, Git, Clockify, Google Workspace for Education, Adobe Photoshop CC.

FEATURED SOFTWARE ENGINEERING & AI PROJECTS

SMK3 Absensi Digital (Institutional Attendance Platform) — Lead Architect & Full-Stack Developer

2026 | Active Production

Live: `pr.smkn3kotamobagu.sch.id` | Showcase: `github.com/jayyuzz/smk3-absensi-showcase`

- Architected and deployed a multi-role digital attendance ecosystem serving **1,500+ daily users** (Principal, Admin, Teachers, Administrative Staff, Students, Homeroom Teachers, and Parents) for SMKN 3 Kotamobagu.
- Implemented high-accuracy client-side biometric facial recognition via `face-api.js` coupled with server-validated GPS geofencing (Haversine algorithm) to strictly prevent proxy check-ins.
- Built comprehensive approval workflows for leave requests, holiday scheduling, real-time attendance leaderboards, and automated WhatsApp notifications via KirimDev/Fonnte gateway.
- Developed as an installable Progressive Web App (PWA) with offline capabilities, paired with a companion Expo / React Native mobile application.

`Next.js 16` `React 19` `TypeScript` `Tailwind CSS v4` `Supabase Auth/RLS` `face-api.js` `Expo React Native` `Vercel`

marry 💍 (International Market Prospect Analyzer) — Creator & Full-Stack Developer

2026 | Active Production

Live: `marry.myap.web.id` | Repository: `github.com/jayyuzz/marry`

- Engineered an AI-powered SaaS product analyzing international market viability, pricing recommendations, and competitor benchmarks for small digital products (ebooks, templates, micro-SaaS) in **50+ languages**.
- Designed a rate-limited Express.js API backend connecting to high-speed OpenAI-compatible inference gateways with structured JSON normalization and real-time execution roadmap generation.
- Integrated Supabase user authentication and automated webhook listener handling instant membership upgrades via Ko-fi payments.

`Node.js Express` `Supabase Auth` `AI Gateway` `Ko-fi Webhooks` `Vercel Serverless`

Paylabs Cafe POS (Point of Sale & Inventory Management) — Full-Stack Developer

2026 | Active Production

Live: `cafe.mve.my.id` | Showcase: `github.com/jayyuzz/cafe-pos-showcase`

- Built an integrated cloud POS and restaurant back-office system featuring cashier shift reconciliation, cash discrepancy auditing, and direct thermal printer API integration (`/api/print/[id]`).
- Engineered a live Kitchen Display System (KDS), table QR self-ordering, delivery driver dispatch checklists, and recipe-based automated raw material stock deduction (BOM tracking & COGS calculation).

`Next.js` `TypeScript` `Supabase PostgreSQL` `Recharts Analytics` `Tailwind CSS`

SMKN 3 Kotamobagu Official Web Portal — Web Developer 2026 | Active Production

`Live: smkn3kotamobagu.sch.id | Showcase: github.com/jayyuzz/smkn3-website-showcase`

- Developed the official institutional portal managing news publishing, academic agendas, student achievements, alumni engagement, and e-learning gateways with structured audit logging.

`Laravel (PHP)` `MySQL` `Sanctum` `Activity Logger` `Tailwind CSS`

AI EVALUATION & LINGUISTIC SPECIALIZATION

Approved Indonesian Linguistic Expert — Mercor Oct 2026 – Present

- Evaluated large language model (LLM) performance on complex Indonesian tasks in partnership with leading global frontier AI research labs.
- Assessed model outputs across translation fidelity, multi-turn dialogue, grammatical/syntactic precision, adversarial edge cases, and cultural register appropriateness.

AI Avatar & Technical Course Localization Evaluator — Enterprise Technical Localization Oct 2026

- Evaluated AI avatar presenter narration quality, pedagogical clarity, and localization accuracy for technical AWS Skill Builder modules in Indonesian.
- Benchmarked curriculum covering Retrieval-Augmented Generation (RAG), Amazon Bedrock Knowledge Bases, and Executive Cloud Security protocols.

PROFESSIONAL TEACHING & CIVIL SERVICE EXPERIENCE

SMA Negeri 4 Kotamobagu — Computer Science & IT Educator (PNS Guru Ahli Pertama) 2022 – Present

- Pioneered adoption of generative AI in secondary education, training teachers on Gemini AI, NotebookLM, and Google for Education suites.
- Instructed students in computer science fundamentals, algorithmic logic, computational thinking, and modern programming (C++, Python).
- Promoted to Penata Muda Tingkat I (Gol. III/b) effective July 2026 (Governor Decree No. 823/BKD/SK/98/2026).

SMK Negeri 1 Tutuyan — Vocational Computer & Multimedia Teacher (PNS Guru Ahli Pertama) 2014 – 2022

- Delivered comprehensive curriculum in Computer Network Engineering (TKJ), Network Security, Multimedia Production, and Web Development.
- Trained student delegates for the Vocational Student Competency Competition (LKS) in IT Networking Support at municipal, regency, and provincial levels.
- Managed institutional IT infrastructure, Dapodik database, and Computer-Based Testing (CBT). Verified PAK Credit Score: 179.785.

SMK Cokroaminoto Kotamobagu — IT & Networking Instructor / Competition Coach 2007 – 2012

- Official Supervising Coach for ICT at the National Applied Science Olympiad for Vocational High Schools (OSTN-SMK 2010) in Semarang, Central Java.
- Administered Cisco Networking Academy coursework (CCNA 1) and computer laboratory operations.

EDUCATION

Bachelor of Engineering (S.T.) in Electrical Engineering (Informatics Concentration) Graduated Dec 2012

Institut Teknologi Minaesa (ITM), Tomohon | GPA: **3.15 / 4.00** (Sangat Memuaskan / Very Satisfactory) | 148 SKS

Thesis: *"Implementasi Jaringan Telepon Melalui Internet Protokol (IP)"* (Implementation of VoIP Telephony Networks)

Vocational High School Diploma in Computer & Network Engineering (TKJ) Graduated June 2006

SMK Cokroaminoto Kotamobagu, North Sulawesi

PROFESSIONAL CERTIFICATIONS & HONORS

Credential / Certification	Issuing Authority	Validity / Year
Approved Indonesian Linguistic Expert	Mercor (Frontier AI Evaluation)	2026
Pendidik Tersertifikasi Gemini (Gemini Certified Educator)	Google for Education	2026 – 2029
Google Certified Educator - Level 1 & Level 2	Google for Education	2026 – 2029
ToT: Coding & Artificial Intelligence (40 JP, Grade: Amat Baik)	Ditjen GTK Kemendikdasmen RI	2025
Sertifikat Pendidik Profesional (Multimedia)	Kemristekdikti & Universitas Negeri Makassar	2017 – Lifetime
Adobe Certified Associate (ACA) - Visual Design (Photoshop CC)	Certiport / Pearson VUE (Score: 833/1000)	2020

Credential / Certification	Issuing Authority	Validity / Year
CCNA 1: Networking Basics	Cisco Networking Academy	2007
National Supervising Coach Recognition - ICT (OSTN-SMK)	Ditjen Mandikdasmen Kemendiknas RI	2010

LANGUAGES

Indonesian: Native / Bilingual Fluency (Linguistic Analysis, Syntax, Cultural Nuance, RLHF Annotation) | **English:** Professional Working Proficiency (Technical Architecture, Software Documentation, Instruction)
